velvet XP™

sempermed® velvet XP is a powder-free nitrile examination glove designed for everyday use across a wide range of applications. It combines a soft and flexible material with reliable barrier protection and tactile control, supporting comfortable wear that fits like a second skin during routine procedures. Compared to the standard velvet version, it offers slightly increased material strength for users who prefer an added level of protection in daily practice.

Soft as velvet

The soft formulation of the glove offers enhanced comfort and fit.

Your daily choice

Suitable for a wide variety of medical applications where protection is critical.

Tested against 56 chemotherapy and hazardous drugs, fentanyl, and gastric acid

Meets USP 800 requirements for PPE compliance for chemotherapy.

Protects users and patients from the transmission of infections

Designed to provide a high level barrier of protection against contaminants, bacteria, and viruses, reducing the risk of cross-contamination and infection in a clinical setting.
