iconiX

Semperguard® iconiX gloves combine protection and functionality and have been tested against 56 chemotherapy and hazardous drugs. The light-blue exterior allows short notes to be written directly on the glove, supporting quick identification and documentation during use. The dual-color design helps distinguish the outside from the inside of the glove and reduces the risk of unintentional re-use. The gloves provide chemical resistance across an extended list of chemicals and feature a longer cuff for additional coverage. Certified as both a Medical Device (MD) and Personal Protective Equipment (PPE), semperguard® iconiX gloves are designed for use in demanding environments.

- **Tested against 56 chemotherapy and hazardous drugs** for protection against a broad range of challenging substances.**
- **Designed with a longer cuff** to provide added coverage and extended wrist protection.
- **Special damp-don inner coating** facilitates faster donning, even with damp hands.
- **The innovative dual-color design** provides a clear visual cue to prevent unintentional re-use.
- **Light-blue outside** allows short notes to be written directly on the glove for quick identification and documentation.
